Rahway Special Improvement District Report

Monday, January 13, 2024

- I. Soup Stroll - January 4, 11, 18 and 25 from 1-4pm at participating restaurants**
- The annual soup sampling event will return to Rahway every Saturday in January
 - The event is popular and draws hundreds of people out to try new restaurants and local favorites. It is a great opportunity for businesses to promote future specials and create new customers.
 - This year, there are 28 restaurants participating throughout the City.
 - **UPDATE:** Week 1 was a great success with over 300 people visiting the downtown restaurants.
- II. Shop Local – Small Business Saturday**
- The SID and Rahway Chamber of Commerce have again collaborated on the Shop Local initiative for Small Business Saturday. We have met to discuss ways to enhance the programs that we already have in place and to add new events and activations.
 - We had 21 businesses participating in our Holiday Window Decorating Contest. This contest encourages businesses to get in the spirit of the holiday season and to make Rahway look merry and bright. People voted for their favorite display using the QR code in the participating businesses' windows.
 - **UPDATE:** Voting closed on December 18th and for the second year in a row, Garden of Ink Tattoo Shop took 1st Place. The Rahway Senior Art Class took a field trip on Saturday, December 7th to look at the decorations and vote for the best holiday window display. For the second year in a row, they selected Gelber Associates as their favorite. Both businesses will receive a check for \$200 and a spotlight in the next Rahway Review.
- III. Training & Continuing Education Opportunities for Businesses**
- **UPDATE: Social Media and Branding Program**
 - The City of Rahway, in conjunction with the Rahway Special Improvement District, sponsored a Social Media and Branding Program to help businesses improve their current promotional practices while learning during the process. The program will be awarded to three businesses who will receive social media services, social media training and mentoring, as well as a strategic branding analysis and plan over a six-month period. Services will be carried out by the SID Social Media and Branding Specialist, Heather Dube. The program was open to all current and new brick and mortar businesses in the City of Rahway.
 - **UPDATE:** Wet Ticket Brewing was the first participating business from May-October 2024. Currently Heather Dube is currently working with Quilla by Sabor Peruano and Millie & Joy Boutique.
- IV. Public Art Incentive Program Amendment to the FIP**
- The purpose of this amendment is to encourage the completion of significant public art projects on private commercial property. Public art enriches the community and fuels the local creative economy. These projects provide artists, fabricators, and other tradespeople with income while contributing to the unique cultural identity of the community. The economic impact of public art includes supporting commerce by attracting visitors to Rahway and contributing to the enhancement of neighborhoods. It can underscore community values and engage the public in compelling ways.
 - The Public Art Incentive Program will be funded through the Rahway Special Improvement District or other funding source if and when they become available.

- Public art may include painted murals, wall art, freestanding or suspended sculpture, mosaics and ceramics, light art, architectural metal, architectural glass, and forms of interactive art.
- To qualify as public art, artwork must be designed to be visible or experienced by the public from within the public realm. The public realm is a collective term for spaces accessible to the public, including any publicly owned streets, pathways, sidewalks, rights of way, parks, or publicly accessible open spaces.
- If approved for the Public Art Incentive Program, the property owner and the City shall enter into an agreement that outlines the terms and responsibilities of the involved parties.
- Funding has been prioritized based on the zoning district in which commercial property is located.
 - CBD – RA: Central Business District Redevelopment Area and RAD- RA: Rahway Arts District Redevelopment Area – Up to \$10,000
 - B-1: Neighborhood Business Zone, B-2: Regional Business Zone, B-4: Service Business Zone, WGO: West Grand Overlay – Up to \$7,500
 - B-3: Highway Business Zone, I-H: Heavy Industrial Zone, I-L: Light Industrial Zone – Up to \$2,500
- **UPDATE:** Quilla by Sabor Peruano was the first applicant of the Public Art Incentive Program. They applied and were approved to for a mural which represents Peruvian culture. Peruvian artist, Jade Rivera used elements that represent Peruvian culture and heritage, including flora and fauna native to the Andes. This mural will be visible from Irving Street and was completed in early November.
- A mural unveiling and dedication was scheduled for Friday, December 6th. The unveiling ceremony brought together city officials, state representatives, and members of the local Peruvian community. Mayor Raymond A. Giacobbe, members of the Rahway City Council, Assemblyman James Kennedy, and Vice Consul Ms. Maria Alejandra Malatesta from the Consulado General de Perú en Paterson were all in attendance.

V. SID Business Improvement Program

- Forgivable loans for new and existing Rahway businesses for Interior Improvements, Signage and Brand Marketing/Design Services up to \$2,000 in each category.
- MBE Certified Businesses (Minority, Women, Veteran, LGBTQ) that has or gets the certification are eligible for additional \$1,000.
- There were 130 applicants for the BIP. 109 businesses met the established criteria for eligibility. 62 businesses have submitted their funding requests.
- The application for the program opened on March 1, 2023, and approval letters were sent in June 2023. We gave a deadline of June 30, 2024, for those businesses who were approved to submit funding requests or to notify the SID of the status of their progress. 54 of 62 businesses have completed all the steps and have received funding. There are a few more still in the process and we are working with them to complete everything and receive funding.
- **UPDATE:** There have been no new funding requests submitted. We are still working with the final few businesses to help them complete their projects and receive funding. After seeing the success of this program, we plan on launching it again in the future.

**Re: 279 E. Albert Street & Hazel Pl – Emergency Sanitary Sewer and Lateral Repairs
City of Rahway**

Dear Mr. Lee:

Please be advised that emergency repairs were required at 279 E. Albert Street & Hazel Place due to the prior company performing the excavation, for the sanitary lateral repairs, being shut down onsite. It was deemed that the company performing the excavation did not have the appropriate labor and equipment to properly complete the job in a timely manner, leaving an open trench in the roadway causing a hazardous condition.

Shauger Property Services, Inc. were authorized to perform the emergency repairs. The repairs included the replacement of 40 linear feet of 6" sewer main, 16 linear feet of 4" sewer lateral, with backfill, compaction, and asphalt restorations to the roadway.

The work has been completed satisfactorily by Shauger Property Services, Inc, 429 Dodd Street, East Orange, NJ 07017, and we recommend payment in the amount of \$ 25,545.69 for actual work performed as indicated on the attached invoice.

**Re: Proposal for Engineering Consulting Services
Main Street Sanitary Sewer Rehabilitation**

Dear Mr. Lee:

T&M Associates (T&M) is pleased to submit this Scope and Fee Estimate for Professional Services associated with the design and construction for the rehabilitation work to the City's existing sanitary sewer mains along Main Street.

As you are aware, approximately 3,100 LF of existing 15" sanitary sewer pipe was recently cleaned and televised along Main Street from East Hazelwood Avenue to Regina Avenue to evaluate its existing condition and determine if any rehabilitation and/or repair work was necessary. Based on our assessment, we recommended that the City line the existing main with a cured in place pipe (CIPP) liner, as well as conduct other miscellaneous sewer repairs including pipe and manhole replacement and spot repairs.

T&M proposes to prepare design documents outlining the final recommended repairs, assist the City during the bid process and provide construction administration and inspection services during construction. In order to accomplish these tasks, we anticipate the following scope of services:

SCOPE OF SERVICES

A. DESIGN PHASE

1. Coordinate a meeting with City representatives to review the goals and objectives for the proposed design improvements. We will review recommended improvements, as well as historical knowledge of the project area and infrastructure to finalize the selection of the proposed work. A field visit to the project site will be conducted to ascertain existing conditions.
2. It is anticipated that we will use the existing City sewer map and available aerial mapping as the basemap for the proposed work. No additional field survey is anticipated.
3. As noted above, it is anticipated that a small section of the existing sanitary sewer will be replaced in kind to address the deficiencies noted. Once all the replacement work is

Re: Proposal for Professional Engineering Services
Main Street Sanitary Sewer Rehabilitation

completed, the remaining sewer along Main Street from East Hazelwood Avenue and Regina Avenue will be lined. Manholes along this alignment will also be evaluated to determine if additional grouting, repair or lining work is needed. Construction drawings will be prepared outlining the improvements.

4. Construction details for the proposed work shall also be prepared and included in the drawing set.
5. Technical specifications and a construction cost estimate will be prepared based on the final improvements selected for the sanitary sewer work. Specifications will be prepared in CSI format.
6. A draft copy of the construction drawings, specifications and cost estimate will be forwarded to the City for review and comment. A meeting will be coordinated with City representatives to review the design documents and address any comments or questions.
7. Once all comments have been received, the design documents will be revised as needed to address inquiries and/or comments raised by the City. Final design documents will be published and issued to the City for final approval.
8. Since the proposed improvements include replacement in kind of existing infrastructure or trenchless rehabilitation, no Treatment Works Approval (TWA) from the New Jersey Department of Environmental Protection (NJDEP) is anticipated. Additionally, we do not anticipate exceeding 5,000 square feet of soil disturbance and as such a Soil Erosion and Sediment Control Certification shall not be necessary from the local Soil Conservation District. Our office will verify this during design, once a final selection of the selected improvements is made and advise the City in the event this changes as a result of the final proposed work.

B. BIDDING PHASE

1. Upon completion of the plans and specifications, our office will coordinate with City representatives the advertisement of the project for bidding purposes. Our office will distribute the contract documents, including final plans and specifications, to prospective contractors.
2. During the bidding phase, T&M will answer questions that arise, either from City officials or prospective bidders and issue addendums and/or clarifications as necessary based on the comments received from bidders.
3. Attend the bid opening with the appropriate municipal officials.

Re: Proposal for Professional Engineering Services
Main Street Sanitary Sewer Rehabilitation

4. Assist City officials with the bid review process including an evaluation of the contractors' bid submissions. As part of this effort, we will prepare a bid tabulation sheet comparing the various bids received, review the credentials of the low bidder, and prepare a recommendation for award for the project.

C. CONTRACT ADMINISTRATION AND CONSTRUCTION OBSERVATION

During construction, T&M will provide contract administration and field inspection services as they relate to the proposed sewer main improvements. These services include the following:

1. Coordinate with City representatives the execution of the contract documents once an award is generated.
2. Schedule and attend a preconstruction meeting with the City, contractor and other applicable representatives. Meeting minutes will be prepared by our office and distributed to all attendees. An additional construction meeting is also included in our proposal to be scheduled as needed during the course of construction to review ongoing progress and/or issues encountered.
3. Review and coordinate approval of utility submittals received from the contractor including the contractor's schedule for the proposed utility work, shop drawings, product data and samples and material certifications of conformance for general compliance with proposed sewer main improvements outlined in the Contract Documents.
4. Review and respond to field inquiries associated with the proposed utility work.
5. Review of written claims or disputes received from the contractor on the proposed utility work and issue written recommendations and/or approvals.
6. Review and prepare recommendations of progress payment to the City for completed construction work associated with the proposed utility work.
7. Full-time construction observation services during periods of active construction work to determine general conformance to the improvements outlined in the contract documents. Based on our preliminary recommendations, we anticipate up to 4 weeks of active construction to complete the necessary excavation and rehabilitation work. During this time, our field inspector will prepare job reports outlining the work accomplished on the project and other relevant matters associated with the utility work. Copies of the job reports will be issued to the City for their records.

Re: Proposal for Professional Engineering Services

- 8. As construction nears completion, T&M will prepare a punch list to be issued to the Contractor and monitor completion of the tasks outlined.
- 9. Contract closeout once all the work is completed and all punch list items have been addressed. This will include review of as-built drawings, as well as other applicable closeout documents outlined in the specifications.

D. PROJECT SCHEDULE AND FEE

We are prepared to commence the services outlined above upon your written authorization and suggest an estimated Not-To-Exceed Fee of \$88,500 to be billed on a monthly basis. A breakdown of our fee is as follows:

Design	\$ 36,500
Bidding	\$ 4,000
Construction Administration & Inspection	<u>\$ 48,000</u>
Total	\$ 88,500

On behalf of T&M Associates, I would like to thank you and the Governing Body for the opportunity to submit this scope of services and fee estimate. We look forward to our continued successful work with you and members of your staff.

**RE: Water Quality Assurance Initiative - Lead Service Line Replacement Program Phase 3
Bid Specification, Plan Sheets and Full Time Inspection**

Dear Mr. Daniel Lee:

As discussed, the City of Rahway would like to Design and Advertise a Water Quality Assurance Initiative - Lead Service Line Replacement Program Phase 3.

PROJECT UNDERSTANDING

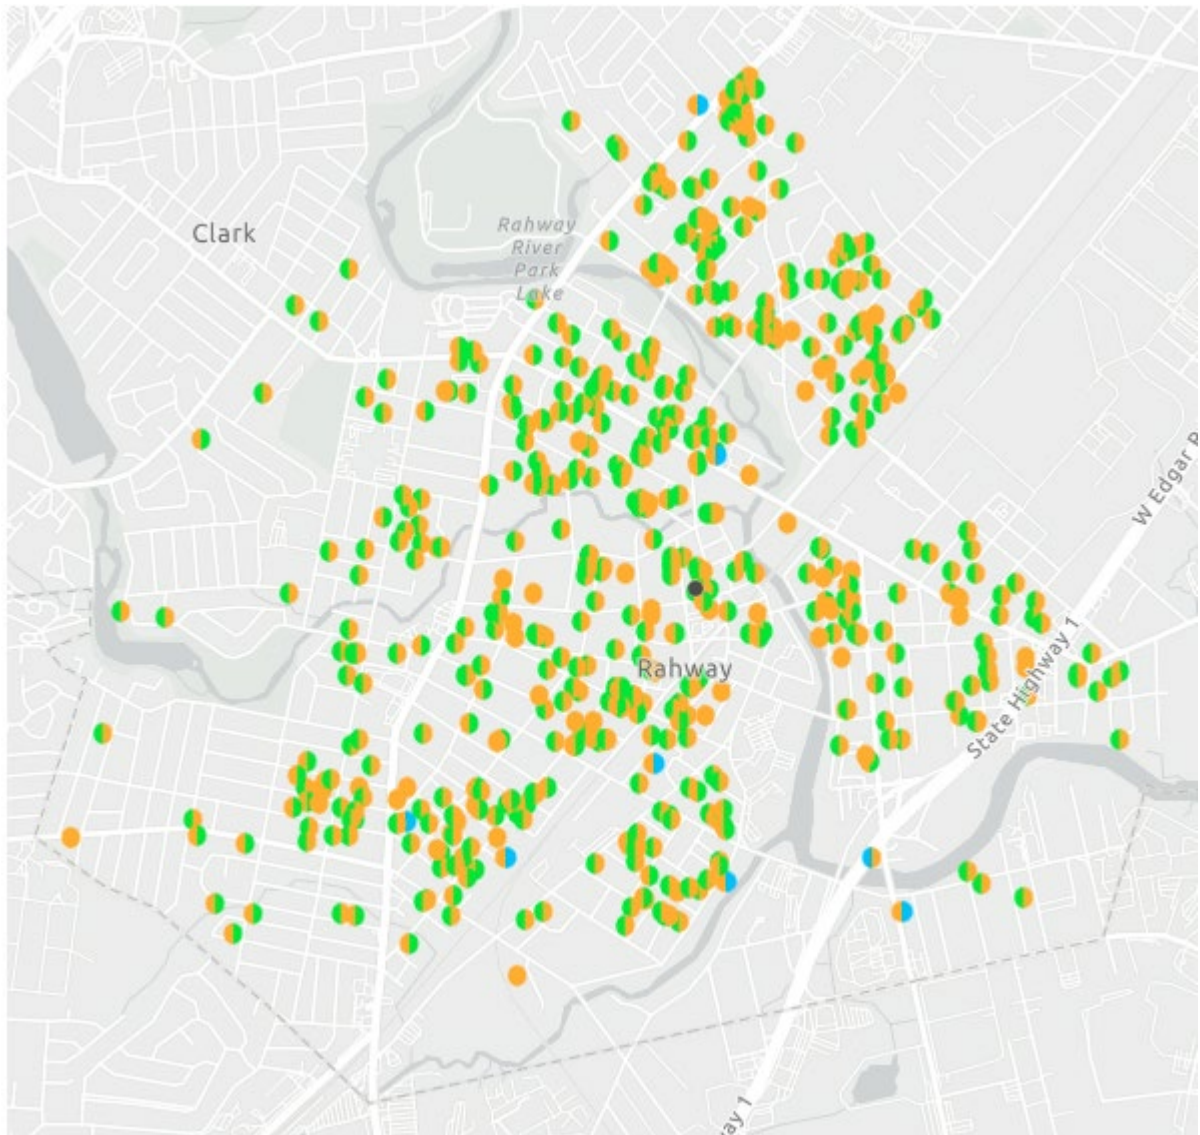

The approved funds include \$1,000,000 FY23 and \$1,250,000 FY24 Congressionally Directed Spending EPA Community Grants along with \$525,500 from the City of Rahway cost share portion. The total construction cost is estimated at \$2,775,500. Current inventory records indicate that 576 service lines consist of lead/galvanized materials or components. Of the 576 known lead/galvanized properties the City will use the grant and cost share funds to replace 300 services. Of the 576 Lead Service Lines, the breakdown is as follows:

- 75 properties are lead/galvanized on both the street and house side
- 350 properties are lead/galvanized only on the house side
- 151 properties are lead/galvanized only on the street side
- 576 total lead/galvanized properties

See Figure 1 for map of the lead/galvanized properties in Rahway and Attachment 1 which is a full list of these addresses. Since right of entries are required to replace the house side services, there will also need to be public outreach to obtained signed right of entry. The 300 LSL's in Phase 3 will consist of the first 149 lead service lines that the City has right-of-entry to replace (we currently have 103 right of entries back from the 425 properties that are either lead and galvanized on both sides or just on house side) and 151 lead services that are only street side and do not require right-of-entry. Therefore, we will need to obtain an additional 46 right-of-entries for Phase 3. The City plans to have the water service lines replaced using traditional trenching or trenchless replacement methods where feasible. Property owners/occupants will receive approximately two weeks' advanced notice of the upcoming scheduled construction work. Existing water services will not be available to facilities during the lead service line replacement for approximately four hours. Disturbed areas restored to original condition.

The Following Tasks will be completed for the project:

Task 1 – Kick Off Meeting with City and Veolia & Bi-Weekly Meetings

ENGenuity will have a Kick-off meeting with the City and Veolia to confirm that all lead service line information and test pit addresses are current and up to date. The kick-off will also discuss schedule and details of the work. We will also have bi-weekly meetings through design effort, assume four (4) 1 hour meetings.

Task 2 – Site Walk to Verify Addresses and Identify Restoration Types/ Door Hangers for Right-of Entry

ENGenuity will walk each of the 300 addresses within the proposed project to determine restoration needs and to determine the type of restoration repair needed after the test pit is completed. We assume two people one week for this task. If needed we can assist in leaving door hangers that week for a targeted list of properties to have a targeted focus on obtaining an additional right of entries. We anticipate two weeks two (2) people of effort for two people to complete this task.

Additionally, there is additional investigation for service locations at 180 locations. Task 2 would also include one (1) person for six weeks obtaining right of entry and getting into basements.

Task 3 – Bid Specifications

Concurrently with Task 2, ENGenuity shall prepare all necessary Bid Specifications for the procurement. The specifications shall be prepared in NJDOT format and will include the following:

- Table of Contents
- Notice to Bidders
- Instructions to Bidders
- Special Provisions
- Technical Specifications
- Bid Proposal Forms
- Contracts

ENGenuity will identify all 300 addresses in the bid documents. We expect to have a mobilization item and various restoration items (grass/concrete/asphalt) included in the bid and will vet with the City which aspects of restoration should be included in the LSL unit bid price.

Task 4 – Plans/Detail Sheets & Permitting

ENGenuity will prepare detail sheets of various test pit restoration methods for the project area. If streets are NJDOT or County then the permitting effort for same is included in Task 4. Also, ENGenuity will coordinate with Etown gas and other entities to get ahead of their capital programs.

Task 5 – Bid Support

ENGenuity will conduct activities related to the bidding process, once the plans and technical specifications have been submitted and approved, including RFIs, evaluation of bids, and recommendation of award.

Task 6- Lead Service Line Replacement Plan

ENGenuity will update the LSLRP per NJDEP Standards and coordinate with Veolia on the inventory. We will submit to NJDEP in July 2025.

Task 7 – Full Time Inspection and Water Service Updates

ENGenuity will provide full-time on-site inspection services to review and oversee the lead service line replacement effort. ENGenuity anticipates that this effort will last for 7 months. ENGenuity will take the data obtained from LSL replacements and update the Veolia water service inventory on a weekly basis. Since the project has two (2) grants, we assume their will be grant close-out.

Exclusions:

Services related to the following are not included in the current proposal for the project. At this time, it is our understanding that they will not be required or have not been requested. A fee for any of the following can be furnished at the client's request:

1. Survey Services.
2. Pavement Cores.
3. Soil Erosion and Sediment Control Permitting (we will review with the District that these are separate openings and confirm an exemption)
4. Inspection is based on 7 months full time, additional months would be provided for an add service.
5. Assumes any permit fees and bid advertisement fees will be paid separately by City.

Schedule of Fees:

A summary of fees is as follows.

Task 1 – Kick-Off Meeting and Bi-weekly meeting during design	\$7,500
Task 2 – Field Walkthrough to Verify Addresses/Right -of-Entry	\$43,200
Task 3 – Bid Specifications	\$9,610
Task 4 – Plans and Detail Sheets/ Permitting NJDOT/County/SESC Exemption	\$29,300
Task 5 – Bid Support	\$2,740
Task 6- Lead Service Line Replacement Plan	\$8,960
Task 7 – Full Time Inspection and Water Service Updates	\$221,750
<u>Grant Close-out</u>	<u>\$10,000</u>
TOTAL	\$333,060

Any reimbursable expenses will be a pass through to the City with an appropriate markup.

We thank you for the opportunity to submit this proposal. Should you have any questions or require any additional information, please do not hesitate to contact me at 732-741-3176.

In providing any aid, benefit, or service on behalf of the City pursuant to this contract, the Vendor agrees that the performance shall be in strict compliance with the Act. The City shall, as soon as practicable after a claim has been made against it, give written notice thereof to the Vendor along with full and complete particulars of the claim. It is further agreed and understood that the City assumes no obligation to indemnify or save harmless the Vendor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the Vendor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the Vendor's obligations assumed in this Agreement, nor shall they be construed to relieve the Vendor from any liability, nor preclude the City from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.

FIRM EXPERIENCE

Organization, Location and Availability. MS&B is a limited liability company formed under the laws of the State of New Jersey. The Firm's principal office is located at 75 Livingston Avenue, Second Floor, Roseland, New Jersey 07068. The Firm (and its predecessors) had been in existence and located in Newark since 1971 until its move to Roseland in May 2012. The Firm maintains offices at 1037 Raymond Boulevard, Newark, New Jersey 07102; 427 Riverview Plaza, Trenton, New Jersey 08611; and 80 Pine Street, 10th Floor, New York, New York 10005. The Firm has 13 Members, 18 Partners, 5 Of Counsel and 11 Associates. The Firm is governed by an executive committee comprised of the Chairperson, Joseph P. Baumann, Jr. and members, Matthew D. Jessup, Bakari G. Lee, William W. Northgrave, and Leah Sandbank.

MS&B will provide a level of service satisfactory to the City's needs and accommodate any request to attend meetings or other events taking place within the State of New Jersey, or the New York or Philadelphia metropolitan areas. MS&B is a full-service law firm with unique technical qualifications, education, training and experience. We have sufficient staff and equipment to perform the scope of services described here. From Cape May County to Bergen County, our attorneys have always been committed to traveling to meet the needs of our clients.

Designated Professionals & Qualifications. The attorneys of MS&B specializing in litigation include Leslie G. London, Of Counsel, members William W. Northgrave, Kevin P. McManimon, Anthony Sodono, III, Andrea Dobin, and Eric E. Tomaszewski; partners Romal D. Bullock, Ted J. Del Guercio, Michele M. Dudas, Grant W. McGuire, William P. Opel, Sari B. Placona, Joshua H. Raymond, Shoshana Schiff, and Joseph R. Zapata, Jr. and associates Jessica F. Silva and Malcolm X. Thorpe. Leslie G. London will be the lead attorney responsible for managing the overall relationship between MS&B and the City. Biographies of the Firm attorneys who would assist with the Firm's representation are attached.

Litigation Experience, Reputation and Knowledge. There is substantial litigation experience among the members of this Firm, primarily but not exclusively in the representation of public entities, public officials and employees. Leslie G. London has been practicing for over 30 years in State Courts and administrative court proceedings. Her primary focus has been in public procurement and contract matters. She is also admitted to the U.S. District Court of New Jersey. William W. Northgrave has been practicing for over 30 years in both State and Federal Courts and is admitted to practice in New Jersey, New York, the Southern and Eastern Districts of New York and the Third Circuit Court of Appeals. Most of his practice in State Court is in the representation of public entities. His primary focus in Federal Court has been in the defense of civil rights and employment matters. Mr. Northgrave has argued several matters before the New Jersey Supreme Court, including *G.D. v. Kenny*, 205 N.J. 275 (2011), *In Re Petition for Referendum to Repeal Ordinance 2354-12 of the Township of West Orange*, 233 N.J. 589, and *In Re Petition for Referendum on City of Trenton, Ordinance 09-02*, 201 N.J. 349. Ted Del Guercio, III has been practicing for over 20 years, and has assisted the Firm's litigation group in connection with prerogative writ challenges to government action; procurement and bid disputes, including litigated disputes; construction related disputes; litigation involving redevelopment and related municipal designations; bankruptcy related matters for governmental clientele; and the defense of tax appeals. A full description of our litigation practice is enclosed.

Affordable Housing Experience.

Our Firm has worked extensively with the provisions of the New Jersey Fair Housing Act, *N.J.S.A. 52:27D-301 et seq.* (the "Act") and its regulations, in assisting municipalities and other public entities in developing, implementing, and financing affordable housing solutions and related projects, including, by

FIRM EXPERIENCE

way of example, the defense of housing element and fair share plans (a “Fair Share Plan”), and defense of municipal entities with respect to other types of affordable housing challenges. As discussed below, our Firm has served as COAH and affordable housing counsel to municipal government in this State in connection with their *Mt. Laurel* obligations. We look forward to bringing that experience to the service of the City.

Public Entity Defense: MS&B represents public entities in all areas. However, the Litigation Department specializes in defending third-party claims and employment-related claims relative to Title 59 of the New Jersey statutes and 42 U.S.C. §1983 and 1985 claims. In these areas, our Litigation Department has a vast amount of experience in defending claims from simple fall down/auto negligent claims, to complex employment discrimination/harassment/wrongful discharge claims and civil rights claims not only asserted against law enforcement agencies, but any and all public officials and public entities. In defending claims of this nature, our Litigation Department regularly appears in all of New Jersey’s State Courts, Federal Courts and the Third Circuit Court of Appeals.

Eminent Domain/Condemnation. We serve as condemnation counsel throughout the State of New Jersey. Among our clients, we currently serve as special counsel to the Borough of Carteret, the County of Hudson, and the Housing Authority of the City of Orange regarding the acquisition of properties for public use. Our attorneys have extensive experience in condemnation actions, including defending challenges to the power of public entities to condemn property, providing representation in property valuation proceedings before condemnation commissioners and jury trials before the Superior Court of New Jersey. Further, our expertise extends to federal and State laws governing the provision of relocation assistance to persons displaced as the result of governmental property takings. In this regard, we provide compliance review to ensure that condemning authorities satisfy the relocation obligations mandated by federal and state laws. Moreover, we represent public entities regarding claims for relocation assistance before administrative agencies and the Superior Court of New Jersey. Most importantly, our attorneys possess the knowledge and skill that is necessary to develop a sound and proactive approach to address and resolve the myriad issues that impact the ability of public entities to execute public improvement programs and redevelopment projects in accordance with stated goals and objectives.

Environmental Litigation. The Firm’s Environmental Law Department has over 20 years of experience as trial and appellate counsel in complex environmental litigation matters in the State and Federal Courts of New Jersey and across the country. We have been involved in all phases of administrative and litigated representation under nearly every major Federal and New Jersey State environmental statute and regulatory program, including disputes over environmental liabilities and challenges to NJDEP enforcement cases. Most recently, our attorneys represented the City of Newark against claims brought by the United States Environmental Protection Agency and third-parties related to costs arising from the investigation and remediation of the Passaic River and Newark Bay, which are anticipated to exceed \$1.5 billion. In addition to the defense of environmental liabilities, our attorneys have represented several municipalities and public authorities in aggressively recovering the costs of defending, investigating and remediating contaminated properties both from other potentially responsible parties and from insurance carriers.

References. Please see references attached and made a part of this proposal. In addition, please see list of Representative Clients for our Litigation Practice attached.

FIRM EXPERIENCE

Knowledge of the City. Our Firm represents a number of communities throughout Union County. In that capacity, we are familiar with the needs that are developing throughout the region. As noted elsewhere in our response, the Firm is familiar with and has had experience with virtually all issues involving Litigation and is prepared to address the needs of the City.

Statement of Good Standing. Neither the Firm of MS&B nor any individuals who would be assigned to this engagement are disbarred, suspended, or otherwise prohibited from professional practice by any federal, state, or local agency. A Certificate of Good Standing is attached.

Business Certificates. MS&B is in compliance with the New Jersey Law Against Discrimination pertaining to Public Contracts, the New Jersey Affirmative Action Rules, the New Jersey Equal Employment Opportunities Act, the Americans with Disabilities Act, the New Jersey Business Registration Law, the Business Entity Electronic Annual Disclosure Statement (“Form BE”) and the Elections Transparency Act. A copy of the Mandatory Equal Employment Opportunity Language, the Firm’s Business Registration Certificate, Certificate of Employee Information Report, Certificate of Good Standing, W-9 Form, Certificates of Liability Insurance, Disclosure of Investment Activities in Iran, Statement of Ownership Disclosure and Certification of Non-Involvement in Prohibited Activities in Russia or Belarus are attached.

Ethics Issues. Neither the Firm nor any attorney of the Firm is the subject of a criminal investigation or involved in any litigation that would impact our proposed representation. Neither the Firm nor any attorney of the Firm has ever been reprimanded, censured, or suspended by the Supreme Court for ethics infractions. The Firm has also not been involved in any bankruptcy or re-organization proceedings in the past. The Firm not been the subject of any lawsuits and/or judgments where the Firm was adjudicated liable for professional malpractice. However, in an abundance of caution, please be advised that on two occasions in the last ten years, our Firm resolved disputes with clients that were not the result of a lawsuit, nor did the resolution constitute an admission of “professional negligence/malpractice”.

Workforce Diversity. At McManimon, Scotland & Baumann, LLC, our diversity reflects the world in which we live, and enhances the collegial and cohesive manner in which we collectively pursue our mission. It also enables us to better understand and respond to our client needs, especially our public sector clients. The Firm grew organically to become who we are today; a broad array of ethnicities, cultures and genders. Nearly one-third of the Firm is owned by people of color and women. We encourage scrolling through the attorney profiles on our website, which speaks volumes as to who we are.

The Firm is also proud of its Diversity, Equity, Inclusion and Belonging Strategic Plan which focuses on recruitment, retention, mentorship, and personal authenticity. This plan, implemented under the leadership of Bakari G. Lee, an Executive Committee member and the Firm’s Chief Diversity Officer, will assure that our previously organic efforts to be diverse and inclusive, will also be intentional going forward.

Conflict of Interest. We are not aware of any existing or potential conflicts of interest that may interfere with our representation of the [municipality type]. We have, over the years, been principally involved in the area of public finance on behalf of public bodies in the State of New Jersey. As a result, we are aware of the nature of transactions which could or do create the potential for conflicts of interest with the representation of such a public body. Typically, in those situations, the conflicts are resolved in

FIRM EXPERIENCE

favor of representing the public body and, as a result, our Firm has not handled transactions of the type that would conflict with that representation.

Miscellaneous. MS&B does not subcontract any of its work and will perform all services described in the scope of service herein directly. The Firm is a professional organization; therefore its members and employees are not aligned with any union organization. The principals of MS&B do not have any immediate relatives who are City employees or elected officials of the City. All services will be performed in the United States of America.

We welcome the opportunity to discuss our engagement as Litigation Counsel to the City of Rahway with any representatives of the City you feel appropriate. We understand the enormous responsibility of such a position and we are confident that you will be extremely satisfied with our services on your behalf should you choose to retain us as Litigation Counsel to the City.
