**City of Rahway Enlists New Jersey Department of Transportation to Optimize Traffic Flow
at the Intersection of St. Georges Ave., Route 27, & Route 35**

Rahway, NJ - February 29, 2024 – Mayor Raymond A. Giacobbe enlisted the New Jersey Department of Transportation (DOT) Engineering Division to investigate the timing cycles for the traffic lights at the intersection of St. Georges Ave., Route 27, and Route 35. Following an initial analysis that determined all timers and detections were working properly, Mayor Giacobbe requested the DOT’s Mobile Engineering Group research the traffic patterns at this location further, and have now optimized the timing.
